phone: 503-823-1650 trees@ci.portland.or.us

Before planting a tree on a city right-of-way (a street tree), you need to obtain a permit from the Urban Forestry Division. The permit is free and includes an on site inspection. An Urban Forestry Tree Inspector will assure the proper tree location and help you select appropriate tree varieties. This will ensure that the tree provides the maximum benefit and requires minimal maintenance in the future. A permit is also required to prune a street tree. The tree inspector will assess the type of pruning that is needed and issue a specific pruning permit.

For more information on tree care go to www.portlandparks.org. There you will find street tree selection help, neighborhood tree walks, Portland Heritage Tree web page, and pruning information. If you are interested in learning more about tree care, Portland Parks & Recreation offers hands on tree care classes throughout the year. Go to our web page, or call 503-823-1650 for class times and locations.

Sellwood Park and Neighborhood Tree Designed by Portland Parks & Recreation Volunteers, Bondi Nyary and Renee Harbor
